On YouTube

Views per video, YouTube Analytics since launch. Shorts dominate; full episodes add minutes, not views.

On Spotify

How to read these numbers

- Feed downloads are measured by OP3 on the canonical feed since Aug 1 and arrive with a one-day lag: the last day included is October 22, 2026. Pandora and the Spotify app do not pull from the feed.
- Feed downloads: 60 new since the October 18 report (381 to 441), and all 60 came from the same source flagged in earlier weeks: Chrome on a single Windows computer in the United Kingdom, pulling 20 episodes at a time on October 18, 21 and 22. No app listens (Apple Podcasts, Spotify, Amazon, iHeart) were logged on the feed this week. OP3 data runs through October 22.
- YouTube views grew from 1,199 to 1,224 (+25): 16 on October 17 and 18, when the Episode 16 video and the Naranjito Short were new, and 9 from October 19 to 23. No new subscribers. YouTube Analytics runs about two days behind, so October 24 and 25 are not counted yet.
- Spotify was read today: 44 all-time plays and 4 followers, both unchanged since the October 20 reading. Reading Spotify cost $3 in Composio credits.
- Puerto Rico views on YouTube Analytics dropped from 357 to 259 in the country breakdown; YouTube recomputes and withholds small country counts, so the total views figure (1,224) is the reliable one.
- No new comments or reviews this week on Spotify, YouTube or Apple Podcasts.
- YouTube: Analytics views since launch, read today (546 on the public counters, which exclude Shorts-feed plays).
- Spotify: read today from the Spotify for Creators dashboard (all-time plays, followers, listeners in the last 30 days).
