How to read these numbers

- Feed downloads are measured by OP3 on the canonical feed since Aug 1 and arrive with a one-day lag; the last day included is October 3, 2026. Pandora and the Spotify app do not pull from the feed.
- YouTube Analytics is complete through October 2; the last two days are still being processed by YouTube.
- Spotify episode plays are 'since published' from the creator dashboard; no Spotify comments yet; the 7-day figure is the all-time counter minus last week's snapshot.
- Episodes 13 (September 27) and 14 (September 30) were published in this period; feed downloads picked up on October 1 and 2 (49 in two days).
- YouTube: Analytics views since launch, read today (494 on the public counters, which exclude Shorts-feed plays).
- Spotify: read today from the Spotify for Creators dashboard (all-time plays, followers, listeners in the last 30 days).
