How to read these numbers

- Feed downloads are measured by OP3 on the canonical feed since Aug 1 and arrive with a one-day lag: the last day included is October 17, 2026. Pandora and the Spotify app do not pull from the feed.
- Spotify: not read this week. The cloud browser used to read the Spotify for Creators dashboard was not available, so Spotify plays, followers and comments are missing from this report; last week's reading (October 11) was 42 plays and 4 followers.
- Feed downloads: 101 new since the October 11 report (280 to 381). As in the last two weeks, most of it is one source: 77 of the 98 downloads logged after the October 11 report came from Chrome on a single Windows computer in the United Kingdom, spread across the catalogue. App listens this week: 7 on Apple Podcasts (iPhone, Puerto Rico).
- YouTube views grew from 1,156 to 1,199 (+43), most of it on October 15 and 16 (35 views), when the Naranjito Short and the Episode 16 video went up. YouTube Analytics runs about two days behind, so October 17 and 18 are not in these numbers yet.
- New this week: Episode 16 (Puerto Rico Medicaid Task Force Report 2027: Making the Case for the Obvious) published October 17 on the feed, Spotify and YouTube, and the Naranjito Short (Desde Naranjito: 5 estrellas en Medicare Advantage) published October 16, with 13 Analytics views so far.
- No new comments or reviews this week on YouTube or Apple Podcasts; Spotify comments were not read.
- YouTube: Analytics views since launch, read today (539 on the public counters, which exclude Shorts-feed plays).
- Spotify: not read this time (needs a login to the creator dashboard).
